# ACTILINK™ *Reborn*

PLASMA Regenerative Activator for Implant

\*plasmapp

# Novel Plasma Surface Treatment

Improving Hydrophilicity

Clean Surface

Simple Operation

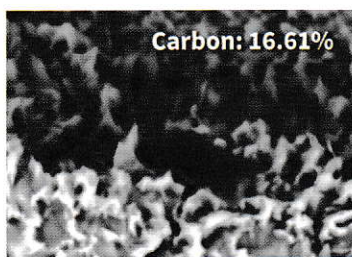

**ACTILINK™ Reborn** is a novel vacuum plasma device to removes contaminants such as hydrocarbons which contributes to enhance osseointegration efficacy of implant fixture.

**Bio-RAP™ cycle of ACTILINK™** has been validated to increase attachment, proliferation, and differentiation of osteoblast cells as well as the adsorption of protein.

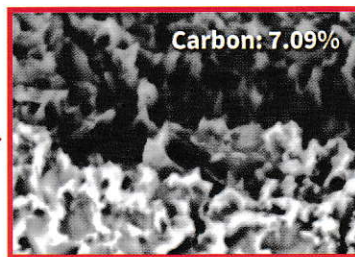

**ACTILINK™ makes high-performance implant surfaces more perfect.**

\* Bio-RAP™ (Regenerative Activation by Plasma)

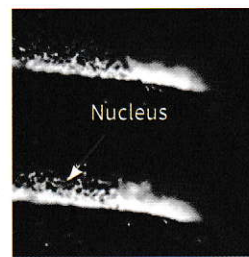

## Plasma Performance of Enhancing Osseointegration
